Dear Friend,

Teaching Opportunities, Part Time

The Tidewater Community College (TCC) is setting up training sites for Driver Improvement Courses in their Community Service Programs in conjunction with the National Safety Council and the Virginia department of Motor Vehicles.

It is a basic Driver Training (8 hours) classroom situation, includes flip chart, videos and magnetic training aides. Students pay \$75 to attend and generally receive five (5) safe driving points upon completion of the course. It will generally be offered on Saturdays.

I have been teaching this course in Northern Virginia for the past 14 years and will start teaching at the Norfolk campus on February 19<sup>th</sup>.

The Workforce Development Staff at TCC has asked me to locate and identify interested persons to teach this course. TCC will be operating at four sites: Chesapeake, Norfolk, Portsmouth, and Virginia Beach as well as military bases. Prospective instructors would be required to attend a one-day training session and monitor a classroom presentation.

Interested persons should contact me by email [ross-bob@msn.com](mailto:ross-bob@msn.com) or phone 757 463-4904. This is an immediate requirement so do not delay if you are inclined to become a Driving Improvement Instructor.

Sincerely,  
Bob Ross
